

# A corporate wellness tool that's as stylish as it is functional.

## **Gear Sport Activity Tracker**

If you want your workforce to work hard, play hard and look good doing both, the Samsung Gear Sport is the ideal corporate perk. Sleek, stylish and available in two colors and many different face styles, the Samsung Gear Sport is the beautifully designed way to encourage workers to move more, eat better and live a healthy life. It's ready for early morning runs and late afternoon stand-up paddling sessions. Users can swim, lift and ride their way to a fitter life, all while staying connected to the workday. It's more movement with more style. It's the Gear Sport from Samsung.

# **Key Features**

#### **Enterprise Ready**

Connect the Gear Sport to your secure enterprise Wi-Fi network in standalone mode, and you'll enable the productivity and business apps on your Gear Sport to communicate directly with your cloud. IT admins can easily configure, deploy and manage the Gear Sport for their workforce using Samsung Knox Configure.

### Sits Beautifully On Your Wrist

The Gear Sport is available in two rich colors, interchangeable straps (sold separately) and a wide range of watch faces.<sup>2</sup> Look equally as stylish in the weight room as the boardroom.

#### **Keeps You Connected**

Out of the office doesn't mean out of touch. The Gear Sport syncs with phone apps, SMS/MMS texting, Instant Messaging and email.<sup>3</sup> Users can control their Samsung Connect ecosystem<sup>4</sup> and make purchases with a tap using Samsung Pay.<sup>5</sup>

#### Easy-Access Wellness Tracking

Advanced tracking sensors enable precise and continuous heart rate monitoring, VO2 max monitoring and GPS tracking, for those morning trail runs. <sup>6</sup> The Gear Sport can track weight loss and caloric intake, and the Running Coach can provide that extra motivation to get over the hump.

#### Swim-Ready Water Resistance

Rated at 5 ATM,<sup>7</sup> the Samsung Gear Sport is ready to do laps in the pool, go for an ocean swim or do some stand-up paddling. It can keep track of time and distance, heart rate, lap count and even stroke type. You can also sync with Speedo On, Speedo's new Swim Tracking app, and dive into the details of your swim session.<sup>8</sup>

#### Military-Spec Durability

The Gear Sport meets MIL-STD-810G standards, for extreme durability. It's passed military specification (MIL-STD-810G) testing against a subset of 21 specific environmental conditions. From drops to vibrations, from extreme temperatures and altitudes to shocks, from humidity to salt fog, rain, dust and sand, the Gear Sport never quits.
