

SAMSUNG

THE NEXT BIG THING FOR BUSINESS IS HERE

The Samsung Galaxy Note® Edge from T-Mobile® breaks the mold with a bold Quad HD Super AMOLED® display and a curved Edge screen that connects you to the tools you need to efficiently get the job done. The refined S Pen™ delivers better precision than your finger so you can do more with ease, and enhanced business-ready features – including built-in Samsung Knox™ security – represent our dedication to providing SAFE™ (Samsung For Enterprise) products and solutions that let you work in confidence virtually anytime, anywhere.

Samsung
GALAXY Note® Edge

Take Your Work to the Edge

The brilliant 5.6" Quad HD Super AMOLED® display – perfect for showing off product designs, project renderings, presentations and videos – curves to create our breakthrough Edge screen. The customizable Edge gives you instant access to email, web, news and everything else that matters most to you and your work. The Edge display also shows your phone, text, app and email notifications without interrupting your work on the Home screen. Plus, scrollable app access, app shortcuts and in-app controls on the Edge display deliver unparalleled multitasking capabilities.

Enhanced Security for Every Day

The Samsung Galaxy Note® Edge includes the Samsung Knox™ enterprise-grade security platform, which meets the needs of highly secure corporate environments with more than 1,500 APIs. Knox allows users to house business functions and information in up to two secure containers – all while keeping personal information separate. You can also leverage the power and peace of mind of two-factor authentication using the integrated fingerprint scanner coupled with a password or PIN. Register up to three different fingerprints to lock your phone, open password-protected websites and make secure online payments with a PayPal® account.

Put More Power in Your Hands With S Pen™

Signing contracts. Capturing meeting notes. Interacting between apps. The advanced S Pen makes it all easier thanks to smooth, instinctive interactions, precise handwriting and mouse-like functionality. Paired with Multi Window,™ you can search for reports while running a presentation or drag an address from an email and drop it right into Google Maps™ – no cutting and pasting required. Smart Select lets you share photos and files just as easily as you would on a desktop. The S Pen also helps you compile and organize notes from multiple sources, like whiteboards, and put them into an editable S Note.™

Power When You Need It Most

Ultra Power Saving Mode dramatically extends battery life to help you power through the workday. When activated, Ultra Power Saving Mode stretches 10% battery power into 24 hours of calls, texts and web browsing[†] to ensure you remain connected for those conference calls you just can't miss. When your calls are done, Adaptive Fast Charging powers your Galaxy Note Edge back up to 50% power in just 30 minutes^{††}.

See the Bigger Picture for Your Business

Whether you need product photos or to speak with vendors via videoconference, the advanced cameras on the Galaxy Note Edge are essential tools for business. The 16 megapixel rear-facing camera with optical image stabilization lets you take crisp, clear photos in a snap. A wide-angle 3.7 megapixel front-facing camera puts you face-to-face with your clients to clearly get your message across.

Specifications

Dimensions

151.3mm x 82.4mm x 8.3mm / 174g

Display

5.6" Quad HD+ Super AMOLED®
(2560 X (1440+160))
