Maximize mobility and productivity while ensuring security

Empower your team to work from anywhere. The Samsung Galaxy Tab® A tablets are powerful business tools designed to improve productivity and workflow efficiencies throughout the mobile enterprise. Productivity is improved through real-time communication, and the preloaded Microsoft Office suite allows workers to create and work as if they were still on desktop or laptop PCs. And Samsung Knox™ enterprise-grade security protects sensitive data.

Facilitate mobility anywhere
The thin, lightweight design of the Galaxy Tab® A tablets allow employees to work from anywhere, and enable better productivity, collaboration and communication. With up to 14 hours of battery life (Tab A 10.1"), they can be productive all day. Add optional keyboards and a case with stand for powerful productivity solutions.

Microsoft® Office® for Android™ apps pre-loaded for productivity enhancement
Optimized for Android™, Microsoft® Office® for Android™ apps come pre-loaded on the Galaxy Tab A tablets to improve productivity. Use Word, Excel and PowerPoint to conveniently view, create and edit documents, spreadsheets and presentations, and easily switch between PC and tablet to open and update them from anywhere with Microsoft® OneDrive® cloud storage.

Powerful performance
Android™ Marshmallow 6.0 provides enhanced business features such as battery-saving capabilities, device-sharing safeguards and automatic encryption. Connectivity includes Dual Band Wi-Fi®, Wi-Fi Direct® and Bluetooth 4.0. And a 1.6 GHz octa-core processor (Tab A 10.1") provides powerful performance.

Samsung Knox™ enterprise-grade security
Samsung Knox™ provides multi-layered device protection and separation of corporate and personal data, and complements and improves existing MDM infrastructure without adding complexity. Knox customization allows us to tailor deployments for specific business needs.

1 Battery power consumption depends on factors such as network configuration, carrier, signal strength, operating temperature, features selected, vibratory mode, backlight settings, browser use, frequency of calls, and voice, data and other application-usage patterns. Adaptive Fast Charging requires an AFC-compatible charger to work. Based on laboratory testing. Total amount of available memory may be less based on configuration.
