

Find your perfect Galaxy Watch size.

Download and print the tool at 100% scale. Make sure to set the paper size to Letter (8.5 x 11) inches. When printing, do not adjust to fit the page. Follow the step-by-step instructions provided.

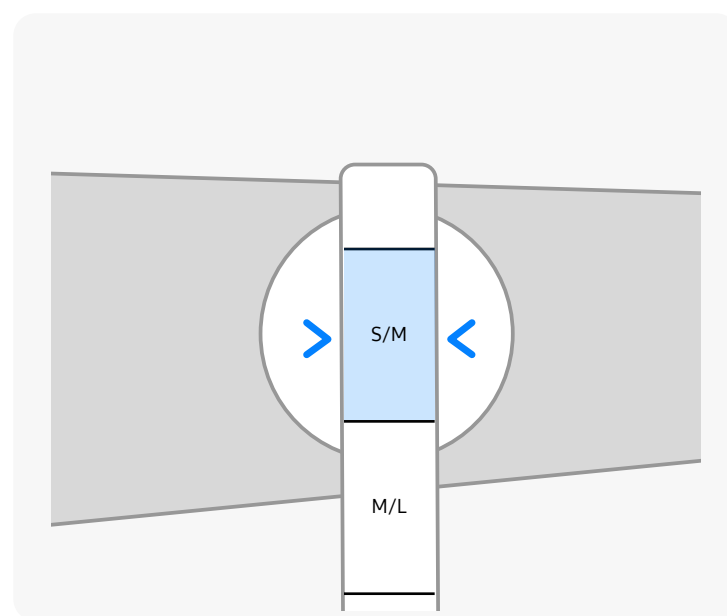

1

Print the measuring tool. Choose the case size you want to measure and cut along the dotted line on the measuring tool.

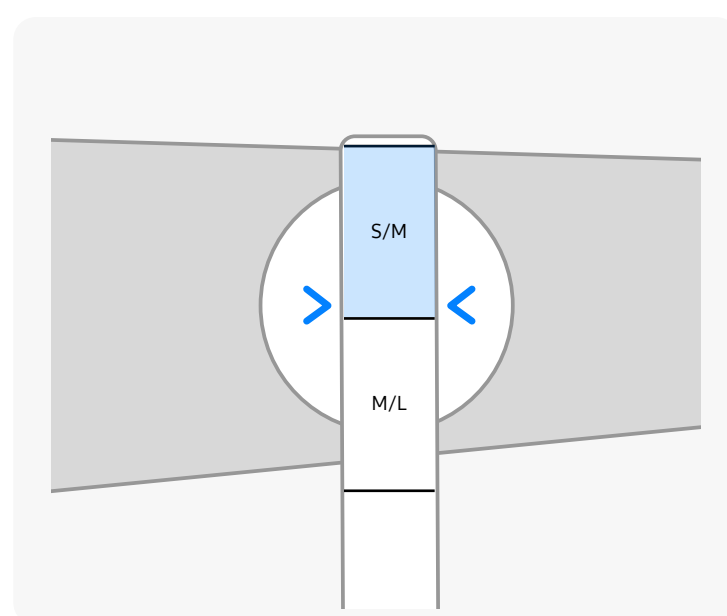

2

Make sure the numbers face outward. Wrap the tool around the wrist where the Galaxy Watch will sit. Confirm it fits snugly and doesn't move.

3

Take note of the wrist size indicated by the arrows.

4

When the number falls between measurements, we recommend rounding up for a better fit.
