[1] Not all Galaxy devices are compatible, see chart "Feature Compatibility by Galaxy Device". [2] Samsung account must be registered through Galaxy Wear app. [3] Available on devices running One UI 8.5 or higher. [4] Touch & Hold Options: Bixby not supported on both Non-Samsung Android and iOS, and Music app not supported on iOS. *Phone must provide Auracast capability. **Available if the user connects Buds to an Android device and enables the feature in the Wear app; then Buds will have that feature enabled until the user disables it via the same process.

Feature Compatibility by Galaxy Device
