Business-ready,  
no matter your  
business.

## Galaxy S8 Active

Do business where, when and how you normally can't.

Not all important business takes place in a cushy conference room. The Samsung Galaxy S8 Active offers the same smart business features as the Galaxy S8, in a military-grade, ruggedized form factor that's ready, willing and able to work in the harshest climates and roughest conditions. And with our longest-lasting battery,<sup>1</sup> you can worry about the job at hand, not your smartphone.

### Complete durability that enables you to do your job.

**Rugged Design** The projected bumper protects against shock and abrasion. The flat display with protective metal frame resists twisting and tilting. The rugged, tough-textured back cover makes gripping easier and more secure.

**Strong, Durable Screen** The Galaxy S8 Active's Quad HD+ Super AMOLED screen features shatter-resistant protection<sup>2</sup>, ensuring your beautiful display remains beautiful.

**Military-Grade Strength** The Galaxy S8 Active has passed military specification (MIL-STD-810G) testing against a subset of 21 specific environmental conditions.<sup>3</sup> From drops to vibrations, from extreme temperatures and altitudes to shocks, from humidity to salt fog, rain, dust and sand, the Galaxy S8 Active never quits.

**IP68 Certified** With IP68 water and dust resistance, the Galaxy S8 Active keeps working even when submerged in up to five feet of water for 30 minutes, and is protected from dust, dirt and sand.<sup>4</sup> Don't let a little thing like a rainstorm or dust storm stop you, or even an accidental drop into a swimming pool.

### When you have all-day usage, you stop for nothing.

**Samsung's Largest Smartphone Battery** The Galaxy S8 Active lasts longer so you can do more.<sup>1</sup>

**Remarkably Fast Wired and Wireless Charging** Fast wired and wireless charging mean less time waiting and more time doing.<sup>5</sup> The Galaxy S8 Active keeps you moving.

**Power Saving Mode** If you're running low, the Galaxy S8 Active conserves battery power by limiting CPU performance and reducing screen brightness. The day ends when you decide it does.

### A flagship business experience.

**Bixby<sup>6</sup>** Tap the Bixby button to access the Bixby Home screen and you'll see learned app choices and content based on your location and habits. Push the button longer, say a voice command or invoke speech-to-text dictation, and have Bixby find what you need.<sup>7</sup>

**Bixby Home with Activity Zone** Bixby learns your routines to serve up information and quick access to apps when you need it most. And with Activity Zone right on your Bixby Home screen, you gain immediate access to the tools you use most when on the job, like stopwatch, compass, flashlight and more.

**Reminder** Stay on task with contextual reminders based on your routine and location, such as your next client meeting, your place in an article, and more. Easily set reminders using voice input.

**Bixby Vision** Translate foreign languages wherever your business takes you. Natively read QR/UPC codes and business cards and even recognize nearby points of interest, all through your camera lens.

**Samsung DeX** Easily connect the Galaxy S8 Active to a monitor, keyboard and mouse<sup>8</sup> for a rich desktop-like experience complete with contextual menus, drag-and-drop functionality and multiple, resizable windows.

**10nm Processor** Run multiple apps simultaneously without ever slowing down.

**Blur-Free Camera** Get sharp, detailed pictures even with fast motion and low light.

**Expandable Micro SD Memory** Expandable up to 256GB with a microSD card.<sup>9</sup>

### Best-in-class security means worry-free business.

**Knox 2.8 Security Platform** Trusted by 29 governments and voted the "most strong" mobile security platform by Gartner, Knox protects your data from the moment you turn it on.<sup>10</sup>

**Biometric Authentication** Iris scanning<sup>11</sup>, facial recognition and fingerprint identification mean the Galaxy S8 Active unlocks with a simple look or touch from you.

**Secure Folder** Knox keeps your work information separate from your personal information, ensuring that what's yours, stays yours.<sup>10</sup>
