

Transforming devices into business tools faster and easier than ever.

Introducing Knox™ Configure, the bulk configuration tool that will quickly and easily tailor your Samsung devices over the cloud.

Knox Configure is available in two editions, to give you exactly what your business needs.

Set Up Edition: Designed to pre-configure and rebrand bulk devices, without having to open individual boxes.

Dynamic Edition: Includes everything in the Setup Edition plus dynamic push/pull updates and more.

Knox Configure makes bulk configuration simple. Your company will have specialized devices designed to maximize productivity, and you'll have them faster and easier than ever.
