

The Federal Motor Carrier Safety Administration (FMCSA) ELD Mandate

All carriers and truck drivers are required to record hours of service electronically using an Electronic Logging Device (ELD).

The Solution

Introducing the Samsung powered Omnitracs XRS ELD Solution. A compliance powerhouse in the palm of the driver's hand, that operates on Samsung devices with the full Omnitracs suite of products. This ELD solution will provide fleets and drivers with easy compliance with:

10-Minute Installation with No Modifications to the Truck

Driver Vehicle Inspection Reports

Electronic Hours of Service Logs

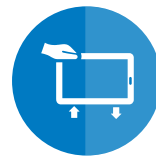

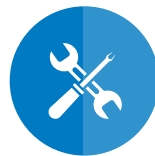

With Omnitrac's ELD Solution companies can:

- Streamline Operations with Customizable Forms
- Capture And Analyze Vehicle Driver Data
- Reduce Paperwork with Automated HOS, IFTA, and DVIR
- Rank Drivers on Speed, MPG, IDLE, and Safety Scores

Device Components

All Of These Capabilities Are Enabled Using the Following Components:

- Samsung Mobile Tablets or Handheld Phones
- Vehicle Mounting Kit
- Omnitrac's XRS Relay

Knox Security

Additionally, the solution includes Samsung's award winning Knox security to protect the business data from intrusion, while offering the ability to configure the driver's mobile experience as required. The Samsung powered Omnitrac's solution extends these benefits by allowing drivers to use the device for personal use without compromising the business integrity of the solution by using Samsung's Knox solution. The turn-key solution is available for purchase at select value-added resellers.
