Meet Galaxy Book4 Ultra, the new way to PC for your business

Catapult your business to the next level with the ultrapowerful Galaxy Book4 Ultra. This laptop provides ultimate power for the most intense processing needs, along with a stunning display, and it seamlessly connects to other Galaxy devices.

Whether working on the latest 3D model, coding a software application or testing out new technology, the latest Intel® Core™ Ultra processor and an NVIDIA® GeForce® RTX graphics card help you conquer the most complicated and graphics-intensive tasks. Plus, all this power comes in a surprisingly thin and lightweight design to help you and your team work from virtually anywhere.

The heritage of Samsung screen quality comes to life in a big way on the 16" Dynamic AMOLED 2X display, now with a touchscreen. And the refresh rate of up to 120Hz makes every experience look sharp and smooth, whether you're rendering animations or streaming a webinar. Need to review a project while sitting near a bright window? Your presentation will stand out thanks to an anti-reflective screen that reduces glare.

Your team can stay seamlessly connected with their other Galaxy devices so they don't miss an important text or call on critical projects.¹ Plus, this laptop is also fortified with Secured Core PC and Samsung Knox to help protect your business data.

Ultimate performance and premium design powerful enough to bring your biggest business ideas to life — that's Galaxy Book4 Ultra.
