Self-service made simple.

An all-in-one kiosk solution that’s ready to go, right out of the box.
The Samsung Kiosk features a brilliant touch display with a speaker, printer, scanner, payment solution and more, all in a sleek design. It’s everything any business needs to offer an advanced self-service experience.

Self-service, right out of the box
Samsung Kiosk is an all-in-one solution that’s ready to go. Built on Samsung’s proven SoC (System on Chip) technology, there’s no external PC required.

Sleek and modern design
The streamlined design with optional stand offers clean cable management and stylish integration into any business’ interior design.

Flexible installation options
For enhanced flexibility, the Samsung Kiosk offers three installation types: countertop, floor stand and wall-mounted.

Built-in merchant flexibility
The modular design with built-in printer enables a variety of payment options including credit card, barcode, QR code and NFC. No additional peripherals are needed, which simplifies maintenance and associated costs.

Anti-microbial and shatter-resistant screen
The Samsung Kiosk’s sharp, clear screen is treated with an antimicrobial coating. And a shatter-resistant film ensures the screen stays intact even if it’s broken.

Secure self-service
The trusted Samsung Knox platform delivers three layers of security protection to help keep your device and self-service ecosystem secure.

Control and monitor your fleet from anywhere
Deploy and securely manage your entire network of Samsung Kiosks with MagicINFO RMS. You can easily view kiosk information, check peripheral devices, manage settings and resolve errors.

Warranty
The Samsung Kiosk is covered by our 3-year limited warranty.

1. Samsung Kiosk supports a fully integrated EMV cradle for a Verifone terminal (P400) which varies by region and country. EMV terminal must be purchased separately.
2. Antimicrobial coating does not protect users or other items against bacteria, viruses including Covid-19, germs and other disease organisms. Antimicrobial coating on surface of screen only. A Shatter-resistant film is applied to the screen to help mitigate the hazards of shattering glass, but it does not protect the screen from physical impact.
3. MagicINFO license must be purchased separately for use of management solution.
