

Accelerate your business without compromise.

Introducing Galaxy A10e. The smartphone your business has been waiting for.

With the Samsung Galaxy A10e, you get exactly what you need for business, with performance and reliability. Do more with a long-lasting battery¹, keep important data with you with 32GB built-in memory, and experience it all on a 5.8" edge-to-edge Infinity Display². It's the phone you need to keep connected with your work life and your personal life, at just the right price.

Mobile Performance

Go Edge-to-Edge Enjoy a bold, bright viewing experience on a 5.8" screen². With an Infinity Display that goes edge-to-edge, you can see more before you have to scroll.

Long-Lasting Battery With a long-lasting battery¹, the Galaxy A10e gives you more time to focus on what really matters: work and mobile productivity.

Best of Both Worlds The Galaxy A10e gives you both a 3.5mm headphone jack and Bluetooth 5.0 connectivity³.

Versatile Camera With an 8MP rear camera and a 5MP front camera, the Galaxy A10e is great for capturing documents, for preserving meeting notes or for barcode scanning.

Made for Business

Don't Worry, Keep it All With 32GB of built-in memory, you can store your documents, meeting notes and data without having to delete anything to make room. If you need more space, simply expand your memory up to 512GB with an optional microSD card⁴.

Jump Seamlessly from Access Point to Access Point Connect seamlessly from access point to access point with Wi-Fi 802.11 r/v/k support. It's ideal for the mobile enterprise worker.

Security and Control

Defense-Grade Security for an Open World The Galaxy A10e is protected by Samsung Knox, our defense-grade security platform built from the chip up. No matter where you and your team go or what you do, you can be sure your business' data stays secure with superior protection that's easy to manage.

Open Customization Meets Management Control From device configuration, enrollment and management to advanced mobile security controls and updates, Samsung has the mobility software and enterprise mobility services you need for every stage of the device lifecycle.
