

The new super powerful Note

SAMSUNG Galaxy Note9

The Samsung Ecosystem.

2

Connect to more. As part of the Samsung Ecosystem, the Galaxy Note9 connects your business to a world of innovation. With wearables, tablets, speakers and more, Galaxy Note9 unlocks powerful technologies that will transform the way your teams work and enhance the way they live. The Samsung Ecosystem is built to take your business farther, faster.

The Galaxy Note9 opens your business to what's next, now.

Business has reached a time of constant disruption. Companies are dropping from the S&P 500 every week, start-ups are rocketing to the top. It's a time when only businesses that are open to new ideas, new ways of working, and new partnerships will thrive. At Samsung, we call it the Next Mobile Economy. And we built the Galaxy Note9 so your business can disrupt, without being disrupted.

Powering productivity.

Forget your laptop. On purpose. Samsung DeX makes any place a work space. With just a single HDMI adapter,¹ Samsung DeX seamlessly transforms Galaxy Note9 into a desktop workstation so your team can do more in large format.

Dual Mode means more doing. Galaxy Note9 is now a touchpad, keyboard and second screen in one, with the added precision of S Pen. Dual Mode means your team can watch videos on a monitor while taking notes on the Galaxy Note9, or easily mark up documents in large format. With DeX,¹ getting business done is easier.

More power in your hand. The S Pen is the world's most powerful stylus, and it's made even more powerful for Galaxy Note9. Capture ideas quickly, and use Smart Select for easy highlighting and editing. Plus your team can use the S Pen as a remote control thanks to its Bluetooth Low Energy capabilities.

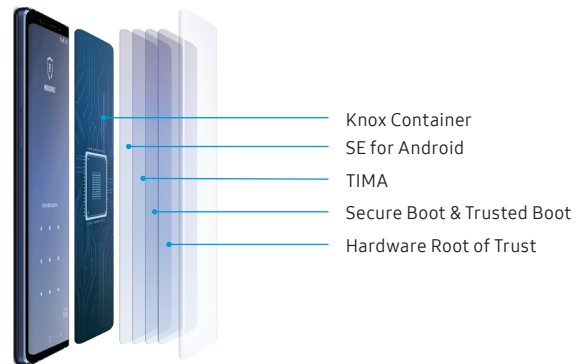

See even more. The Galaxy Note9 6.4" Infinity Display, our largest ever on a smartphone, lets your team see and do more. Its large, brilliant screen makes it more immersive than ever, whether watching videos or editing documents.

Adapts like the human eye. The revolutionary Dual Aperture² lens self-adapts between F1.5 and F2.4, for beautiful photos in any light. The camera automatically enhances every picture, and even immediately catches closed eyes or blurred images.

Powering your business.

Defense-grade security for an open world. The Galaxy Note9 is protected by Knox,[™] a defense-grade security platform built from the chip up for superior protection that's easier to manage. Knox keeps data safe from the moment the Galaxy Note9 is powered on.³

Keep company information in company hands. The Galaxy Note9 biometric unlock lets you access secure business data with a look or a touch, or both. Iris and fingerprint scan enable multi-factor authentication.

Easy changes and updates. You can configure your devices, push security patches and deploy application updates remotely with cloud-based Knox Configure.

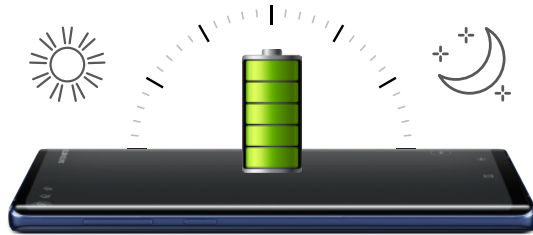

Enroll all devices at once. With Knox Mobile Enrollment, your employees can enroll simply by powering on their devices and connecting to the network.

Management made easy. Knox Manage is a cloud-based solution with an affordable license fee that allows you to restrict employee access to certain apps or websites, and remotely wipe and support devices.

Take complete control. Samsung's Enterprise Firmware Over-The-Air (E-FOTA) built-in software⁴ enables remote device management, update testing and control over firmware and OS updates.

Powering mobility.

A battery that outlasts long days. The largest battery in a Note, ever. When your team has a long-lasting battery, they're always ready to go.⁵

All Day Battery

Store more, delete less. Give big ideas the space they need. Download, capture and create more with the Galaxy Note9 standard 128GB storage, which is twice as much as Galaxy Note8. An optional 1TB-ready version⁶ of the Galaxy Note9 offers even more space, meaning more room for ideas, files, videos and photos. And more peace of mind knowing there's a place for it all.

Built-in Storage

128GB

Expandable Storage

512GB

Accelerate your performance. Increased RAM⁷ on the Galaxy Note9 allows you to get everything done that you need to do, want to do and love to do.

At the speed of business. A fast-moving team needs a phone that works at the speed of business. Galaxy Note9 delivers fast network speeds up to 5CA and supports 4x4 MIMO to maximize the data transfer rate.⁸

Faster CPU

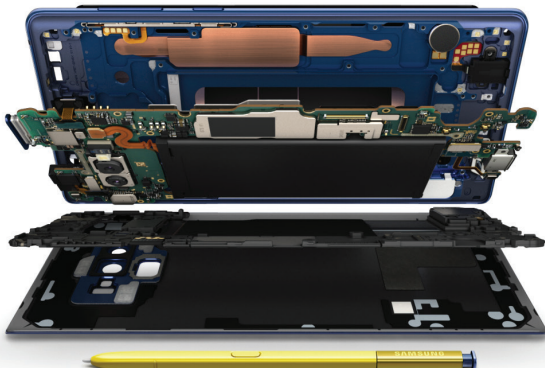

53%

Faster GPU

23%

RAM

6GB

Powering every day.

Spectacular sound to go. The Galaxy Note9 features stereo speakers pro-tuned by AKG and an immersive audio experience by Dolby Atmos.⁹ It's a truly stunning audio experience wherever you are.

Conquer the elements. With its IP68 rating,⁹ the Galaxy Note9 is water- and dust-resistant. You can use it worry-free.

Charge fast. Avoid the wires and power up quickly by placing your Samsung Galaxy Note9 on a Fast Wireless Charger.¹⁰

Wireless Charging

Get bright, sharp, true-to-life colors. The Quad HD+ Super AMOLED display gives you beautiful color contrast and cinematic detail, all in the palm of your hand.

Galaxy Note9
