

Work from anywhere at the speed of now.

Do more with one super powerful device. With Samsung DeX, your phone turns into a killer PC. With just a single cable or HDMI adapter,¹ you can enable your Galaxy S20, S10 and S9 Series, Galaxy Note10 and Note9 Series, Galaxy Tab S6, Galaxy Tab S5e or Galaxy Tab S4 to power Samsung DeX. You can then run an entire desktop complete with a computer monitor, keyboard and mouse.¹ Access all your mobile and web apps on an intuitive desktop interface, with multiple resizable windows, all the standard keyboard shortcuts and drag-and-drop convenience.

With the next-generation Samsung DeX for PC and a single USB cable, you can connect your PC or Mac to your Galaxy S20 Series or Galaxy Note10 Series.

And with Dual Mode (available on Galaxy S20 and S10 Series, Galaxy Note10 and Note9 Series, Galaxy Tab S6, Galaxy Tab S5e and Galaxy Tab S4), you can show presentations, browse the web and watch videos on an external display, all while taking notes, messaging your contacts and accessing other apps on your Galaxy device.

Samsung DeX Productivity

Simple

Use a cable or HDMI adapter to connect your Galaxy device to a monitor, keyboard and mouse¹ to work in an optimized desktop experience for Android apps.² You can also turn your Galaxy device into a touchpad and keyboard.

Convenient and Precise

Use your Galaxy device in a desktop environment without having to transfer data or files to a separate computer. The S Pen on the Note10 and Note9 and Galaxy Tab S6 and S4 combines with Samsung DeX to let you do things like take notes or use the screen as a digital canvas to more precisely edit your images while viewing them on a bigger screen.

Secure and Customizable

Samsung Knox™ defense-grade mobile security³ makes sure your Galaxy device is secure, and protects the apps and data you access with Samsung DeX. And Knox Configure can help customize a Samsung DeX-equipped device to your specific business needs.

Transform your Galaxy device into a desktop-like experience with a single cable.¹

Samsung DeX Classic extends your device with a desktop experience.

- Provides an easy and intuitive work experience through a familiar interface for multi-tasking
- Supports ability to resize, move and maximize/minimize app windows
- Keyboard/mouse optimization supports keyboard shortcuts, copy and paste, mouse scroll, and drag and drop functions
- Allows you to leverage the advantages of the Galaxy Note10, Note9, and Tab S6 S Pen on a larger screen, and to use the S Pen as a remote control to make presentations easier

Samsung DeX Classic

Samsung DeX for PC

Samsung DeX Mode

Samsung DeX for PC is built for the new way business is done.

- Use a single USB-C cable to connect your Galaxy S20 Series or Galaxy Note10 Series to your Mac, PC or monitor,¹ then edit on your phone and see your work on the big screen in real time
- Use your apps, access files and get work done simply by connecting Galaxy S20 Series or Galaxy Note10 Series to your computer
- With Samsung DeX for PC you can now drag and drop files and copy and paste text between your PC and your Galaxy S20 Series or Galaxy Note10 Series

Samsung DeX offers a desktop UX for your Android apps.

- The Samsung Internet browser app supports desktop versions of websites on your Galaxy mobile device, and allows you to keep multiple windows and tabs open
- Microsoft Office and Adobe apps are optimized for DeX with keyboard, mouse and resizable windows support
- Samsung preloaded apps are optimized for DeX
- Samsung DeX helps you get more out of the emails, files and apps on your phone by letting you interact with them using desktop functions, such as right-click and drag and drop

Optimized for Samsung DeX.

- Access full virtual desktops with VDI solutions optimized for DeX from Amazon, Citrix, Microsoft and VMware
- Many leading businesses and productivity apps have been optimized for Samsung DeX, and DeX Labs extends support to most apps
