

SAMSUNG

Next-level power.
Built for the new way business is done.

Introducing the Galaxy Note10 | Note10+ | Note10+ 5G.

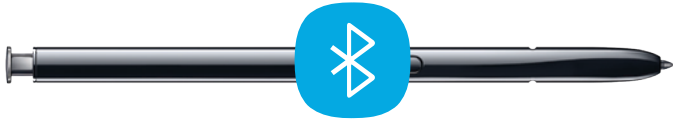

The ability to work anywhere and anytime is fundamental to today's business. The Samsung Galaxy Note10 puts that power in your hands. You'll experience powerful productivity. Powerful performance. Powerful speed. All with powerful security. They're the smartphones that deliver next-level power designed to perform at the speed of now.

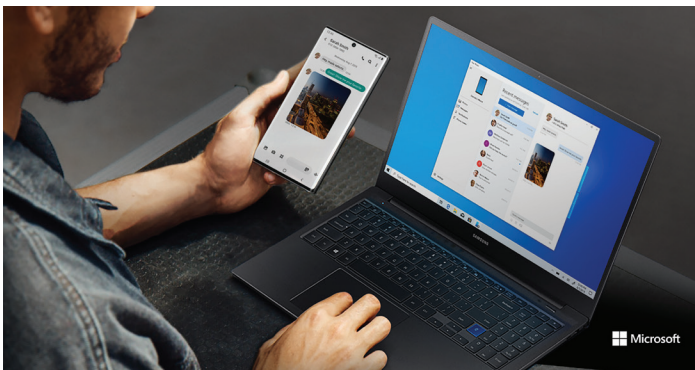

The power of productivity.

Precision productivity. The Galaxy Note10 integrates Microsoft OneDrive and Office apps to make the next generation S Pen a magic wand for work. Handwrite notes that convert to text and save in Word, mark up documents or edit presentations with precision, and advance PowerPoint slides back and forth remotely with a flick of the S Pen.

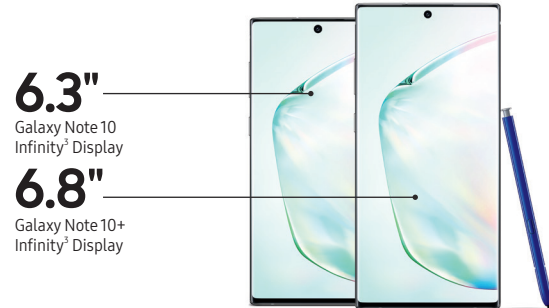

Seamless integration. With Microsoft OneDrive and Office apps integrated into the Galaxy Note10, there's no need to download additional apps. Seamlessly sync files and photos across devices. With Outlook pre-loaded, you can easily manage events, access your network and stay in touch. And use single sign-on to access both your Samsung and Microsoft accounts.¹

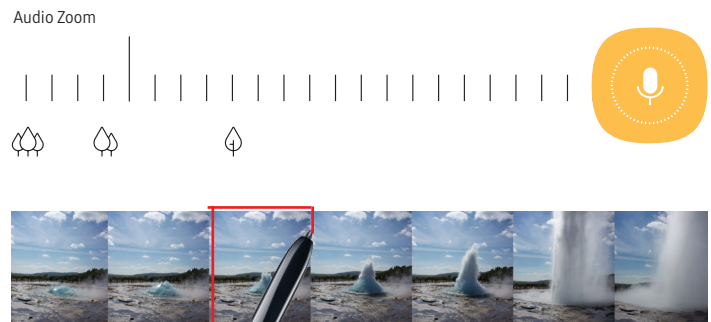

Desktop computing, mobile-powered. Your workday just got easier. The next-generation Samsung DeX for PC turns your Galaxy Note10 into a killer PC. Simply connect to your Macbook or a Windows 10 laptop with a USB-C cable to launch Samsung DeX for PC.² You can easily access, update or share files on your Galaxy Note10 while also accessing all your apps, using your phone to make calls or text. It's the best of both worlds.

See more, do more. Give your team the power to see and do more than ever before with the 6.3" Note10, 6.8" Note10+ and 6.8" Note10+ 5G nearly bezel-less symmetrical Infinity Display.³ It's perfect for when you're viewing and editing documents on the go and makes it easy to multitask between apps.

Capture, edit and share your ideas with a camera that can do it all. Finally, a camera that can do it all. Film and annotate video with ease and precision using the S Pen. Virtualize your conference room and feel like your colleagues are actually there. Capture your field of view like never before. Even take precise measurements. The Galaxy Note10 camera is much more than just a camera.

Upload, download and collaborate over the latest, hyperfast 5G network. Business today moves fast, so your wireless connection needs to be even faster. Now with Note10+ 5G, you can search at nearly the speed of thought, stream with minimal lag, and share and download large files in near real time.⁴

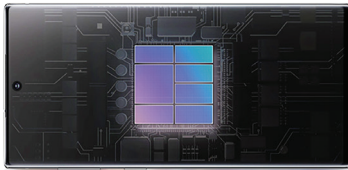

The power of performance and speed.

Power to last your entire workday. Whether you're stepping into a meeting, dialing into a conference call or editing a presentation, there's never a good time to lose power. The Galaxy Note10 is designed to support you throughout your busiest day with our most powerful battery yet and super-fast charging.⁵

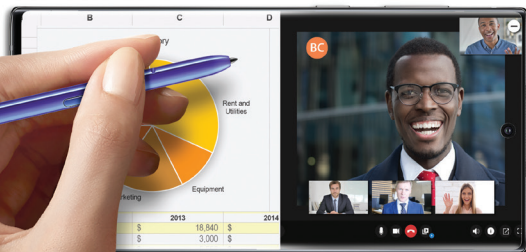

30
minute charge
gives you
All Day
power⁵

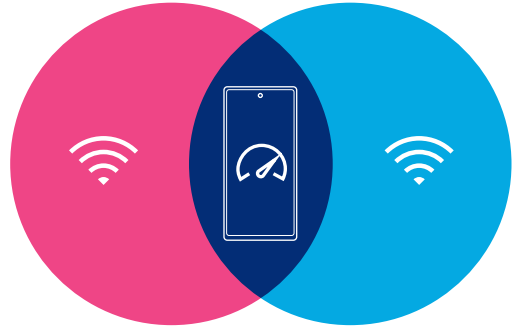

Everything, right-now fast. The speed of business today is fast. To stay ahead, you have to move beyond fast. The Galaxy Note10 delivers speed plus neural network processing that optimizes your performance over time. The more you multitask with the Galaxy Note10, the faster it gets.

Stream at the speed of your working day. You live in a new era of speed and connectivity that powers your business. The Galaxy Note10 enables faster downloads and uninterrupted streaming, so you can keep up with the demands of the workday at any given moment. From presentations to videoconferencing, the Galaxy Note10 has you covered.

Fast transitioning and seamless roaming, now and into the future. As network capabilities evolve, you need a powerful device that can navigate both older and next-generation network environments. Galaxy Note10 enables fast transitioning across access points as well as seamless roaming with 802.11R, and it's ready for Wi-Fi 6.

Laptop storage without the laptop. The Galaxy Note10 provides you with the storage of a laptop, without the bulk.^{6,7} Download presentations, save all the files you want, and have real-time access wherever you may be without receiving a "storage full" notification.

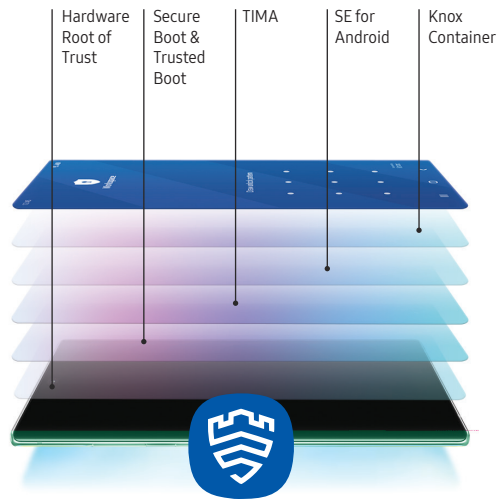

Up to
512GB
Internal

Store, manage and process near-limitless data in the cloud with ease. Couple Note10+ 5G's powerful capabilities with a hyperfast 5G connection, and the only thing slowing you down is how fast you can think.⁸

The power of security and control.

Keep your data safe and access data securely. Your powerful phone requires powerful protection. Samsung Knox protects the Galaxy Note10 from the chip up. Trusted by 29 governments around the world, Knox security is always on. You can share information securely with colleagues and clients, and the most sensitive data can be completely isolated in a separate secure folder.

The support you need to keep running your business. Samsung Enterprise Tech Support offers you direct access to our team of enterprise mobility experts to augment your IT team. Your business can keep on running as our experts offer direct support for every Samsung hardware- and software-related issue.⁹

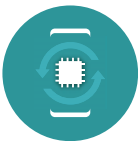

Securely store, manage and process your data in the cloud with confidence. The Note10+ 5G delivers more capability than ever before, empowering you with hyperfast download speeds and minimal lag.⁸ And with Knox Business Services, you can manage devices in near real time, configure settings, and remotely lock or wipe devices if lost or stolen.

The power of 5G.

Connect: 5G speeds and secure connectivity. Get fast, secure connection without Wi-Fi. The Samsung Galaxy Note10+ 5G enables you to create an 802.11ac hotspot, but with speeds up to 650Mbps. That's approximately three times faster than Wi-Fi. That means a faster, more reliable, more seamless connection for your laptop or tablet while you're in an airport, hotel room or coffee shop. Plus you can send and receive all your confidential business data over a secure 5G carrier network, rather than an unsecured public Wi-Fi network (Unlocked by Samsung version not available for Galaxy Note 10+ 5G). You can also connect to any dedicated mmWave network for a faster experience.

Communicate: 5G enables real-time interactivity. All that 5G speed comes with incredible communication benefits. With 4K video conferencing, people and presentations will be clear and detailed. Data-sharing becomes near-instantaneous, which improves collaboration. When everyone is working with the very latest information, communication is unified. And virtualized workspaces can be anywhere.

Compute: 5G moves mobile from consumption to creation. The Galaxy Note10+ 5G speeds connection to the cloud, allowing you to work virtually anywhere. Be efficient in the plane, the train or the car. And the Galaxy Note10+ 5G can completely remove connection to a cloud server from the equation by enabling instantaneous edge computing.

Control: 5G enables secure, remote diagnosis and control. The fact that the Galaxy Note10+ 5G offers real-time connection with no lag opens up new worlds of possibility. You can leverage remote AR to confirm inventory, diagnose issues and communicate precisely. You can control, analyze and visualize your entire IoT infrastructure, right from your Galaxy Note10+ 5G.
