

Forget your laptop. On purpose.

No need to bring your laptop everywhere. A desktop workstation experience is always possible with your Galaxy device and Samsung DeX. With just a single HDMI adapter,¹ you can connect your Galaxy Note9 or Galaxy Tab S4 to a monitor, keyboard and mouse.¹ Now you get a desktop experience to open apps, use keyboard shortcuts and drag and drop files, all on the big screen.

And with Dual Mode, you can keep using your phone or tablet screen while using Samsung DeX on an external monitor. Dual Mode allows you to show presentations, browse the web and watch videos on an external display, all while simultaneously taking notes, messaging your contacts and accessing other apps.

You can also connect to your monitor or TV with the HDMI adapter (Galaxy Note9 or Galaxy Tab S4), the DeX Pad (Galaxy S8 and above) or the DeX Station (Galaxy S8 and above) to turn your Galaxy device into a touchpad and keyboard that let you easily navigate your DeX homescreen and apps. With DeX, you can stay productive from wherever you are.

Samsung DeX Productivity

Simple

Use an HDMI adapter to connect your Galaxy device to a monitor, keyboard and mouse to work in an optimized desktop experience for Android apps.² Or use the HDMI adapter to connect to your monitor or TV, to turn your Galaxy Note9 or Galaxy Tab S4 into a touchpad and keyboard.

Convenient and Precise

Use your Galaxy device in a desktop environment without having to transfer data or files to a separate computer. The S Pen combined with Samsung DeX allows you to use the Galaxy Note9 or Galaxy Tab S4 screen as a digital canvas to more precisely edit your images while viewing them on the bigger screen.

Secure

Your Galaxy devices remain protected by Samsung Knox™ defense-grade mobile security.³ Your Galaxy Note9 and Galaxy Tab S4 are secure, and the apps and data you access with DeX are protected.

Transform your Galaxy device into a desktop-like experience with a single cable.

Samsung DeX Extends your Device with a Desktop Experience

- Provides an easy and intuitive work experience through a familiar interface for multi-tasking
- Supports ability to resize, move and maximize/minimize app windows
- Keyboard/mouse optimization supports keyboard shortcuts, copy and paste, mouse scroll, and drag and drop functions
- Allows you to leverage the advantages of the S Pen on a larger screen, and to use the S Pen as a remote control to make presentations easier

Samsung DeX Offers a Desktop UX for your Android Apps

- Samsung Internet lets you use multiple browsers and tabs with desktop versions of websites
- Microsoft Office and Adobe apps are optimized for DeX with keyboard, mouse and resizable windows support
- Most Samsung preloaded apps are optimized for DeX
- Many existing apps not yet optimized are still accessible with DeX

Samsung DeX Offers an Optimized Windows VDI Solution

- When combined with VDI partner solutions, work is even easier with a virtual Windows desktop²
- Access full Windows desktops and apps through a VDI solution partnership² including Citrix, VMware and Amazon

HDMI Adapter

- DeX is integrated into the Galaxy Note9 and Galaxy Tab S4, so you can connect them to your workstation with a single adapter and HDMI cable¹
