

Powered for the way you work.

Work securely and productively all day from anywhere.

The Samsung Galaxy A6 gives your team the ability to work securely and productively all day from anywhere. Packed with high-performance features business users love, the Galaxy A6 is powered for the way you work, and delivered at a mid-tier price.

Workflow Optimized

Do more. Hold less. Bring photos, videos, websites and more to life on the expansive 5.6" Super AMOLED Infinity Display.¹ The edge-to-edge screen maximizes content with bright, rich colors, while the sleek metal casing fits right in your pocket.

Powerful battery. The Galaxy A6 is equipped with a powerful 3000 mAh battery that can keep up with the demands of your workday.²

Multitask better. 3GB RAM on the Galaxy A6 allows your team to get everything they need to do, want to do and love to do, done.

More space for what matters. Keep it all with expandable storage. With 32GB of built-in storage³ and the option to add up to 400GB with a microSD card⁴, there's plenty of room for all your files, videos and photos.

Clarity, always. The camera on the Galaxy A6 makes your workforce more efficient. A 16MP high-resolution front and rear camera makes it easy for your team to capture clear, crisp images anywhere. They can keep shooting even as the sun goes down, with an F1.7 aperture that helps capture legible documents and bright photos.

Unlocks quickly. Using facial recognition to unlock and access their phone quickly, your team can get right to the task at hand, whether answering an email, viewing a meeting notification or dialing into a conference call.

Powered for the way you work. Affordable, sleek and equipped with powerful Samsung technology. Now your team can stay productive and connected anywhere, for a competitive price that works for businesses of any size.

Trusted Security

Defense-grade security for an open world.⁵ Samsung Knox™ is a security platform built from the chip up for superior protection and easy manageability. Knox keeps hackers out and your company's data safe from the moment your device turns on.

Unlocks securely. With an integrated fingerprint scanner, the Galaxy A6 unlocks with a touch, so your team can safely and easily access everything they need to get the job done.

Enterprise Solutions, Services and Support

Customized care at every turn. Samsung's ProCare delivers two years of mobility technical support, to help keep your business running smoothly.⁶ Your Support Account Manager acts as an extension of your team. ProCare device protection also provides deductible-free assistance to ensure your damaged devices are repaired quickly.

Easy to manage and customize. Take control and get going with QuickStart.⁷ Our experts get you started with Samsung's cloud-based management solution that lets you remotely manage, configure and deploy apps for your business' mobile devices. Let our experts help make managing mobility easy.

Easy changes and updates. Easily deploy and manage your workforce's mobile technology. With Knox Configure, our cloud-based management solution, you can enroll devices, push security patches and deploy application updates, all remotely. Now it's as easy to manage hundreds of devices as it is one.

Management made easy. Knox Manage is a cloud-based solution with an affordable license fee that provides a simple deployment process to help you address your team's security concerns. Restrict employees' access to certain apps or websites, and remotely wipe and support your team's devices, so you never have to worry about compromising your company's data.

Enroll all devices at once. Enroll all of your team's devices at once, without having to manually enroll each one. With Knox Mobile Enrollment, your employees can just power on their devices and connect to the network to enroll. So you can save time and ensure that devices are secure and under your control, from the moment your team starts using them.

Works well with others. Samsung partners with Unified Endpoint Manager (UEM) and Mobile Device Management (MDM) providers like Blackberry and VMware to help you easily manage all your team's devices. We give you an end-to-end, integrated view of all the users within your company, regardless of the device or OS they're using. Our partners will also help you customize your Samsung smartphone to ensure your team has what they need to meet your unique business needs.
