

REACH 4.0 IPG Service Migration to LYNK CLOUD

Service Expiration Scheduled for December 31st 2021

- Properties with legacy Samsung hospitality TVs and REACH 4.0 RF or IP installations that use the IPG service must undergo a migration to LYNK CLOUD
- Samsung will provide a 12 month license to the Property Free of Charge
- After the initial 12 month “Free Of Charge” license period, the Property will be charged a license fee of \$24 per TV per year thereafter.
- Property will need to contact a Samsung Certified Systems Integrator to perform the software upgrade of the REACH Server. Remote access will be required by the System Integrator. Professional Service provided by System Integrator may result in a charge to the Property.
- Samsung will provide access and training for LYNK CLOUD to the Property for Device Management, Content Management and Channel Map Configuration during the term of the license
