

Engage customers in a new way. Introducing the Galaxy Tab S4.

Engage in more ways and in more places than ever.

The Galaxy Tab S4 delivers a more versatile mobile experience that gives you more freedom to work the way you want to. Connect, type, sign and share with ease; where, how and when it's best for you and your customers. And with security from the chip up and easy deployment and management, the Galaxy Tab S4 is truly enterprise-ready.

Key Features

Greater engagement.

Crisp. Clear. Captivating. A stunningly bright 10.5" state-of-the-art Super AMOLED display gives you room for dynamic, on-the-spot presentations.

DeX means more doing. When the Tab S4 is connected to a workstation via DeX, you can use Dual Mode to turn the Tab S4 into a second screen. Watch presentations on a monitor while taking notes or signing documents on the Tab S4.¹

Cinematic surround sound. Bring presentations, videos and more to life like never before. Dolby Atmos[®] and quad speakers tuned by AKG surround you in extraordinary sound.

Productivity everywhere.

S Pen provided, productivity unleashed. Capture ideas quickly, run presentations, sign documents and more. And it never needs charging.

DeX gives you a powerful desktop-like experience. Samsung DeX makes any place a work space. Simply attach the optional keyboard cover, and DeX transforms the Tab S4 into a powerful desktop-like experience.²

Powerful, long-lasting battery. When your team has a long-lasting battery of up to 16 hours on a single charge, they're always ready.³

Cellular connectivity keeps you connected. No matter where your team is working, the Galaxy Tab S4 keeps them connected.

Enterprise-ready security and manageability.

Defense-grade security. The Galaxy Tab S4 is protected by Knox, a security platform built from the chip up for superior protection.⁴

Management made easy. Knox Manage is a cloud-based EMM solution with an affordable license fee that lets you restrict access to certain apps or websites, and remotely wipe and support devices.

Easy changes and updates. With Knox Configure, our cloud-based management solution, you can provision and customize a large number of devices, push security patches and deploy application updates, all remotely. And built-in Enterprise Firmware Over-The-Air (E-FOTA) enables remote device management, so you can test updates and control firmware and OS updates while allowing your devices to remain in the field.

Galaxy Tab S4 T-Mobile

Galaxy Tab® S4 T-Mobile
