Screen images simulated. HHP-UNLOCKED-A425GSERIESDST-JUL21T

⁵5G: This device is compatible with both mmWave and Sub-6 5G networks. LTE: This device will work on any compatible LTE network. Wireless voice, data and messaging services are compatible with most GSM networks such as AT&T and T-Mobile and CDMA networks such as Verizon, Sprint and US Cellular. Support for certain rate plans, features and services such as VoWiFi and hotspot vary by wireless service provider. See provider for details. ⁵5G speeds vary and require optimal network and connection (factors include frequency, bandwidth, congestion); see carrier for availability. ²Based on 5G connection. Average battery life under typical usage conditions. Average expected performance based on typical use. Actual battery life depends on factors such as network, features selected, frequency of calls, and voice, data, and other application usage patterns. Results may vary. ⁴Fast Charging capability provided through charger. ¹Portion of memory occupied by existing content. ³MicroSD card sold separately. ⁴Measured diagonally, the screen size is 6.6" in the full rectangle and 6.5" with accounting for the rounded corners. Actual viewable area is less due to the rounded corners and camera lens. ⁵Requires additional license. For the full list of Knox certifications, please visit samsung.com/knox. ⁶Total amount of available memory may be less based on configuration.
