Galaxy Book Pro 360 5G

The new way to PC

Why can't laptops be more like phones — lightweight, portable and always connected? They can when your new business tool is the Samsung Galaxy Book Pro 360 5G. Combining the power of a PC with the thinness of a smartphone, Galaxy Book Pro 360 5G goes from PC to top-of-the-line tablet in an instant. Take quick notes or sketch out ideas with the redesigned S Pen¹ and Samsung Notes app. Switch over to a video meeting. This Intel® Evo™ device features an 11th Gen Intel® Core™ processor and Windows 11 Home, and when you add in 5G connectivity,² you'll be ready to speed through whatever the day throws at you.

Get 360 degrees of thin

Turn heads with a stylish, 2-in-1 device that's as powerful as a PC and as thin as a smartphone. Designed to switch quickly between PC and tablet, Galaxy Book Pro 360 5G is the ultra-versatile and ultra-portable business tool. Sleek and ultrathin, it's designed to make you look good in any business setting.

The power to create it, the storage to keep it

Featuring an 11th Gen Intel® Core™ processor and Windows 11 Home, this Intel® Evo™ device enables you to do virtually whatever the day calls for. With a near-instantaneous start-up and up to 512GB of storage, you'll always be ready.

Speeds that move as fast as you do

Get the speeds you need to blaze through your work in record time. The 5G connectivity² of this next-generation data network helps you do more with lightning speeds. And with 5G connectivity, you won't be dependent on finding a Wi-Fi hotspot.

Make everything easy on the eyes

Make everything look unbelievably brilliant with the first Super AMOLED touch screen in a Galaxy Book. With 120% color volume and Dolby Atmos surround sound, every video and every meeting will be more immersive.³ Work inside or in direct sunlight and still have perfect color. It even lessens eye strain by reducing harmful blue light.
