## No matter where business takes you, take business with you.

## Galaxy Tab A Family

Maximize mobility and productivity while ensuring security.

Empower your team to work from anywhere. The Samsung Galaxy Tab A Wi-Fi and LTE tablets are powerful business tools designed to improve productivity and workflow efficiencies throughout the mobile enterprise. Productivity is improved through real-time communication, and Samsung Knox enterprise-grade security protects sensitive data. They're the ideal field companions for workforces on the move.

### Immersive performance you can take anywhere (Galaxy Tab A7)

Galaxy Tab A7 combines the slim, lightweight design you need, with the immersive performance you crave. The ultra-widescreen display helps you work from anywhere while the Dolby Atmos surround sound speakers place you in the center of the action. Video calls via the landscape-oriented, front-facing camera help you feel as if you're in the same room with colleagues. And the fast processor, long-lasting battery and robust built storage supports the streaming, browsing, and data you need to get work done.

### Facilitate Mobility Anywhere

The thin, lightweight design of the Galaxy Tab A tablets allows employees to work from anywhere, and enables better productivity, collaboration and communication. With up to 13 hours of battery life<sup>1</sup>, they can be productive all day. Add optional keyboards and a case with stand for powerful productivity solutions.

### Enhanced Power and Connectivity

Android 10.0 provides enhanced business features such as battery-saving capabilities, multi-window multitasking<sup>2</sup> and enhanced security. Connectivity includes Dual Band Wi-Fi, Wi-Fi Direct, LTE (Galaxy Tab A 8.4") and Bluetooth. And processors of up to 1.8 GHz octa-core provide powerful performance.

### Enterprise Security and Mobility Management

Protect sensitive data with the Samsung Knox defense-grade security platform. Samsung Knox IT solutions provide end-to-end solutions that are trusted and secure. Explore your options from device configuration, deployment and maintenance, to enterprise mobility management, to data protection and container solutions.<sup>3</sup>
