<sup>5</sup>5G: This device is compatible with Sub-6 5G networks. LTE: This device will work on any compatible LTE network. Wireless voice, data and messaging services are compatible with most GSM networks such as AT&T and T-Mobile and CDMA networks such as Verizon, Sprint and US Cellular. Support for certain rate plans, features and services such as VoWiFi and hotspot vary by wireless service provider. See provider for details. VERIZON CUSTOMERS ONLY: The unlocked Galaxy A32 5G is not compatible with Verizon 5G Ultra Wideband network but will work with Verizon's 4G LTE service. Please consider the Verizon 5G-ready Galaxy A42 5G or Galaxy S21. <sup>6</sup>5G speeds vary and require optimal network and connection (factors include frequency, bandwidth, congestion); see carrier for availability. <sup>7</sup>Based on average battery life under typical usage conditions. Average expected performance based on typical use. Actual battery life depends on factors such as network, features selected, frequency of calls, and voice, data, and other application usage patterns. Results may vary. <sup>8</sup>Fast Charging capability provided through charger. <sup>9</sup>Portion of memory occupied by existing content. <sup>10</sup>MicroSD card sold separately. <sup>11</sup>Measured diagonally, the screen size is 6.5" in the full rectangle and 6.3" with accounting for the rounded corners. Actual viewable area is less due to the rounded corners and camera lens. <sup>12</sup>Requires additional license. For the full list of Knox certifications, please visit [samsung.com/knox](https://samsung.com/knox). <sup>13</sup>Total amount of available memory may be less based on configuration.
