Avoid mobile productivity pitfalls in healthcare

-A 2-in-1 solution-
How mobile is your clinical staff?

Embracing mobility in healthcare environments goes beyond simply issuing either a tablet or a notebook to every practitioner—it means issuing the right tool for the job. In order to provide patients with the best care, do physicians, nurses and staff need tablets, notebooks, or... a combination of both?
There’s a reason 62% of clinicians use tablets on their rounds¹: They’re handy.

Mobility: Where tablets excel

- Monitoring and recording vital signs
- Taking notes on rounds
- Easily accessing records, test results and prescriptions
- Engaging and educating patients
- Filling out forms at patient bedsides
However, for tackling complex insurance paperwork or updating in-depth electronic medical records—perhaps a tablet isn’t the device of choice.
Notebook use cases

Obviously, there is still demand for business notebook PCs—more than 23 million units were sold in the United States in 2015 alone.

Why? Traditionally, you can still do more than you can on a tablet...

Productivity: Where notebooks excel

- Composing and editing documents
- Submitting complex compliance forms
- Creating/updating electronic health records
- Accessing medical reports or research
... But it’s probably difficult to fit a notebook in a lab coat pocket or lug it around at a medical conference.
Joining mobility and productivity

So, what about when healthcare workers need all of the above?
Arm your employees with a comprehensive 2-in-1 productivity solution: The Samsung Galaxy Book 12 with Windows 10 Pro, specially geared for a highly clinical staff.
The mobility of Samsung Galaxy

Ultra-thin, lightweight and stylish for easy mobility

Long-lasting up to 10.5-hour battery and adaptive fast charging

Full-sized, backlit keyboard and integrated trackpad

S-Pen included for annotation, signatures, etc...
The productivity of a Microsoft Windows 2-in-1...

Windows 10 Pro, built-in security, and enterprise infrastructure-ready

12-inch Super AMOLED® display for vivid detail and compelling presentations

USB-C support makes it easy to connect to displays and other peripherals

Samsung Flow turns your Samsung phone into a user authentication device, syncs your data and automatically activates the phone’s hotspot

3. Galaxy S6, Note5 and later Galaxy phones with fingerprint reader.
Samsung knows mobile productivity

Samsung’s newest enterprise-ready 2-in-1 device now includes Windows 10 Pro, for true mobile productivity.
