

Instant, secure chat for your team.

Presenting the Galaxy XCover Pro / ESChat Push-to-Talk Solution

Secure and reliable PTT for your business or agency. Combine the integrated Push-to-Talk button on the Samsung Galaxy XCover Pro with ESChat, and you have the ultimate PTT solution. Enhancing communication for commercial workforces and public agencies, the ESChat-equipped Galaxy XCover Pro offers secure multimedia group messaging, integrated location tracking and mapping, integrated radio interoperability and more, all in a rugged, reliable device.

Why this solution?

Secure PTT communication

ES Chat is approved by the Defense Information Systems Agency (DISA) for U.S. military operational use, and is a FirstNet Certified™ solution.

Live and historical bread crumb tracking and mapping

Keep track of your team wherever they are.

Multimedia group messaging

Send situational photos and videos, then discuss in real-time.

Carrier agnostic with cross-carrier communication

The Galaxy XCover Pro and ESChat PTT solution integrates seamlessly with your existing network, whether it's through a single carrier or several.

Galaxy XCover Pro and Galaxy Tab Active Pro with installed ESChat

Device Layout
