

## Build Apps To Evolve Your Business.

Over time, your mobile applications should change with your business. Being able to find a reliable source of mobile expertise shouldn't. Samsung's Application Support Services gives you the tools you need to get the most out of your business mobility today and in the days to come.

By the end of 2017, market demand for mobile app development services will grow at least five times faster than internal IT organizations' ability to deliver them.

## Samsung Application Support Services

### Key Benefits

- Custom application development
- Application development consulting and training

### Custom Application Development

Mobile applications simplify everyday processes that help your business thrive. Samsung works closely with your team to identify your organization's needs to develop custom applications dedicated to reaching your goals. By partnering with Samsung, your team can develop solutions to improve productivity, provide better customer service, mobilize job functions for greater flexibility, and more.

### Consulting and Training for App Development

Put Samsung's vast experience in application development to work with hands-on consultations and training for your IT team. Our experts collaborate with your IT department to leverage industry best practices to design and maintain applications. Samsung's training program arms your IT department with new technologies and is flexible enough to be delivered on-site or online.
